

Quick Guide to accessing Curriculum Builder

MBA Curriculum Builder is a web-based database that allows easy and fast manipulation of the national Business Administration standards. The system supports a variety of queries that can be used to build state standards or to develop courses or programs of study based on the national standards.

As a resident of a state with enhanced membership in our MBA Research Consortium, you will receive MBA Curriculum Builder 3 **free**. Curriculum Builder 3 adds assessment tools, including access to test items, rubrics and scenarios, and other materials appropriate to the specific performance indicator. It also includes all course guides designed for broad distribution. Specialized guides (e.g., High School of Business™ and custom-designed guides) are not available via this membership level.

To receive access to Curriculum Builder 3, please send an email to Marsha Dyer at service@mbaresearch.org. The email should state:

- *I'm a <state> teacher and I'd like to request teacher access to the MBA Curriculum Builder for this school year.*

Please provide:

Full Name

Name of School

Address of School
